

# **Automobile Sensors for Environmental Monitoring**

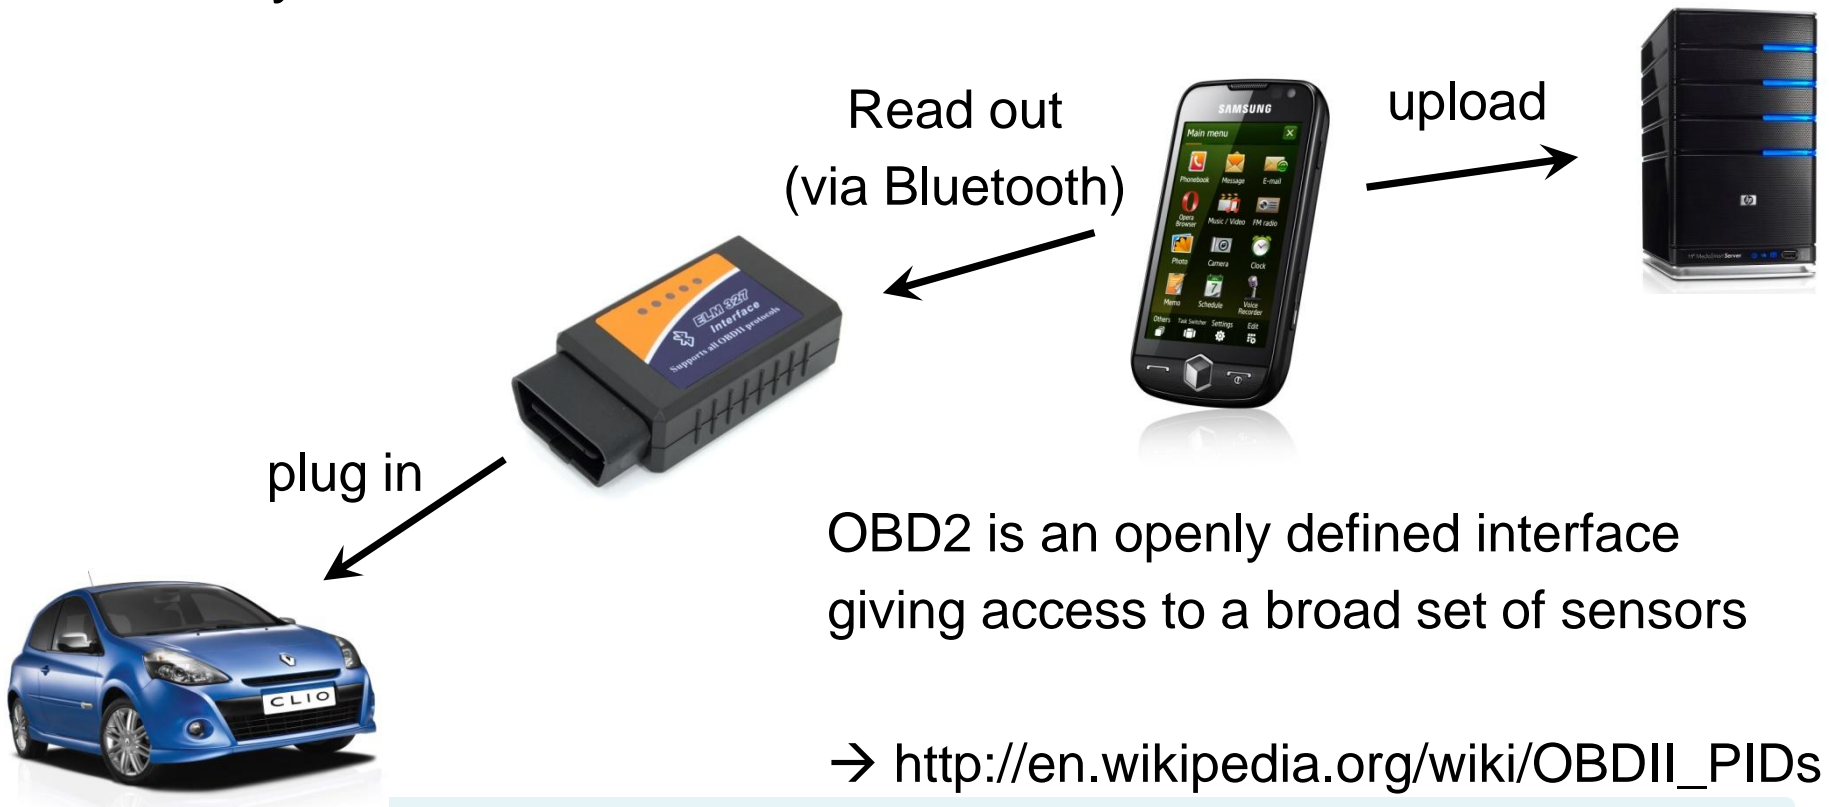

# Vision

- Leveraging existing car sensors towards environmental modelling and decision making

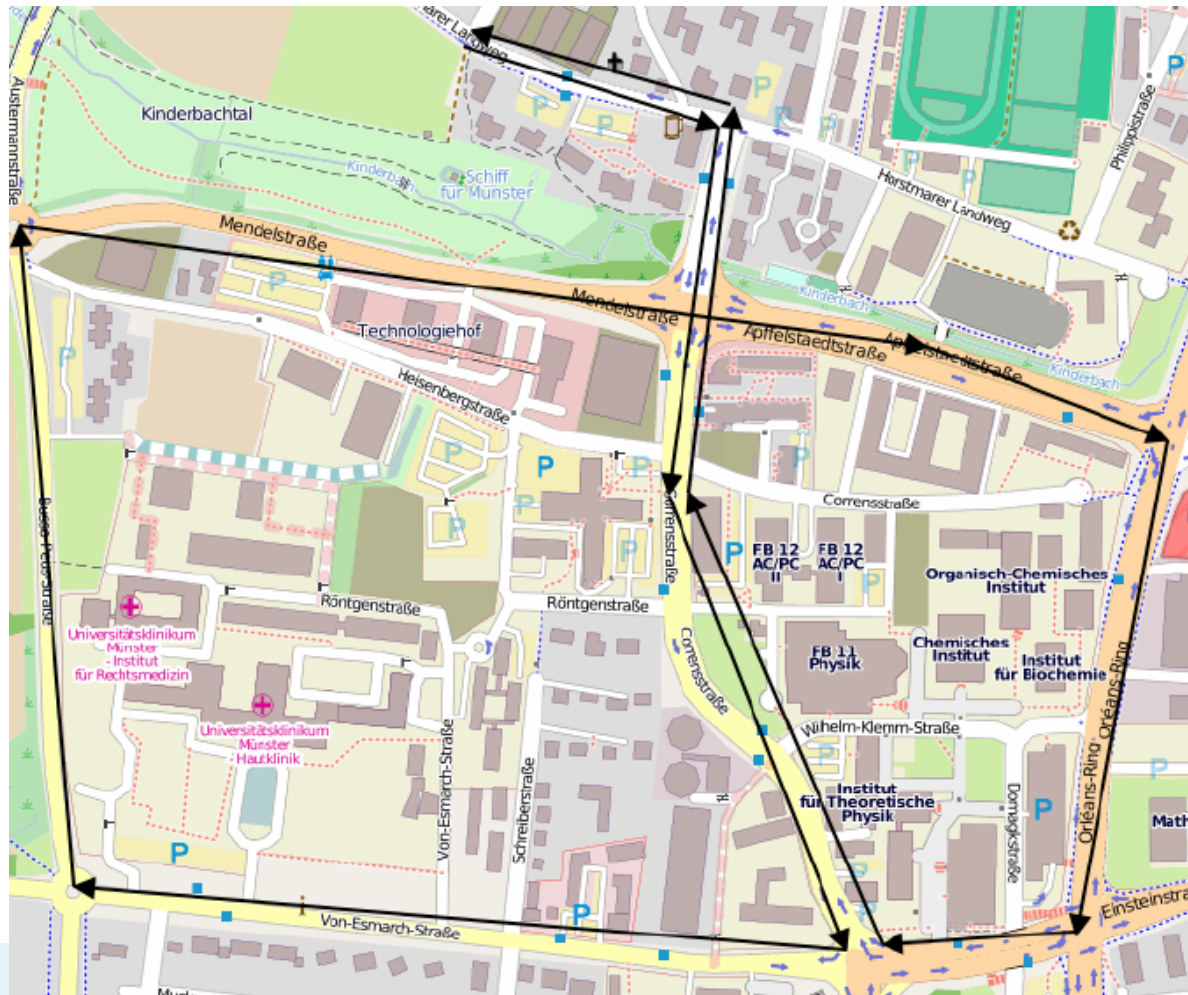

# Principle

- Gathering automobile sensor data utilizing a common OBD2 reader (~ 20 €)
- Analysis of collected data on the server

# Evaluation

- Test track in Münster (Germany)

# Evaluation

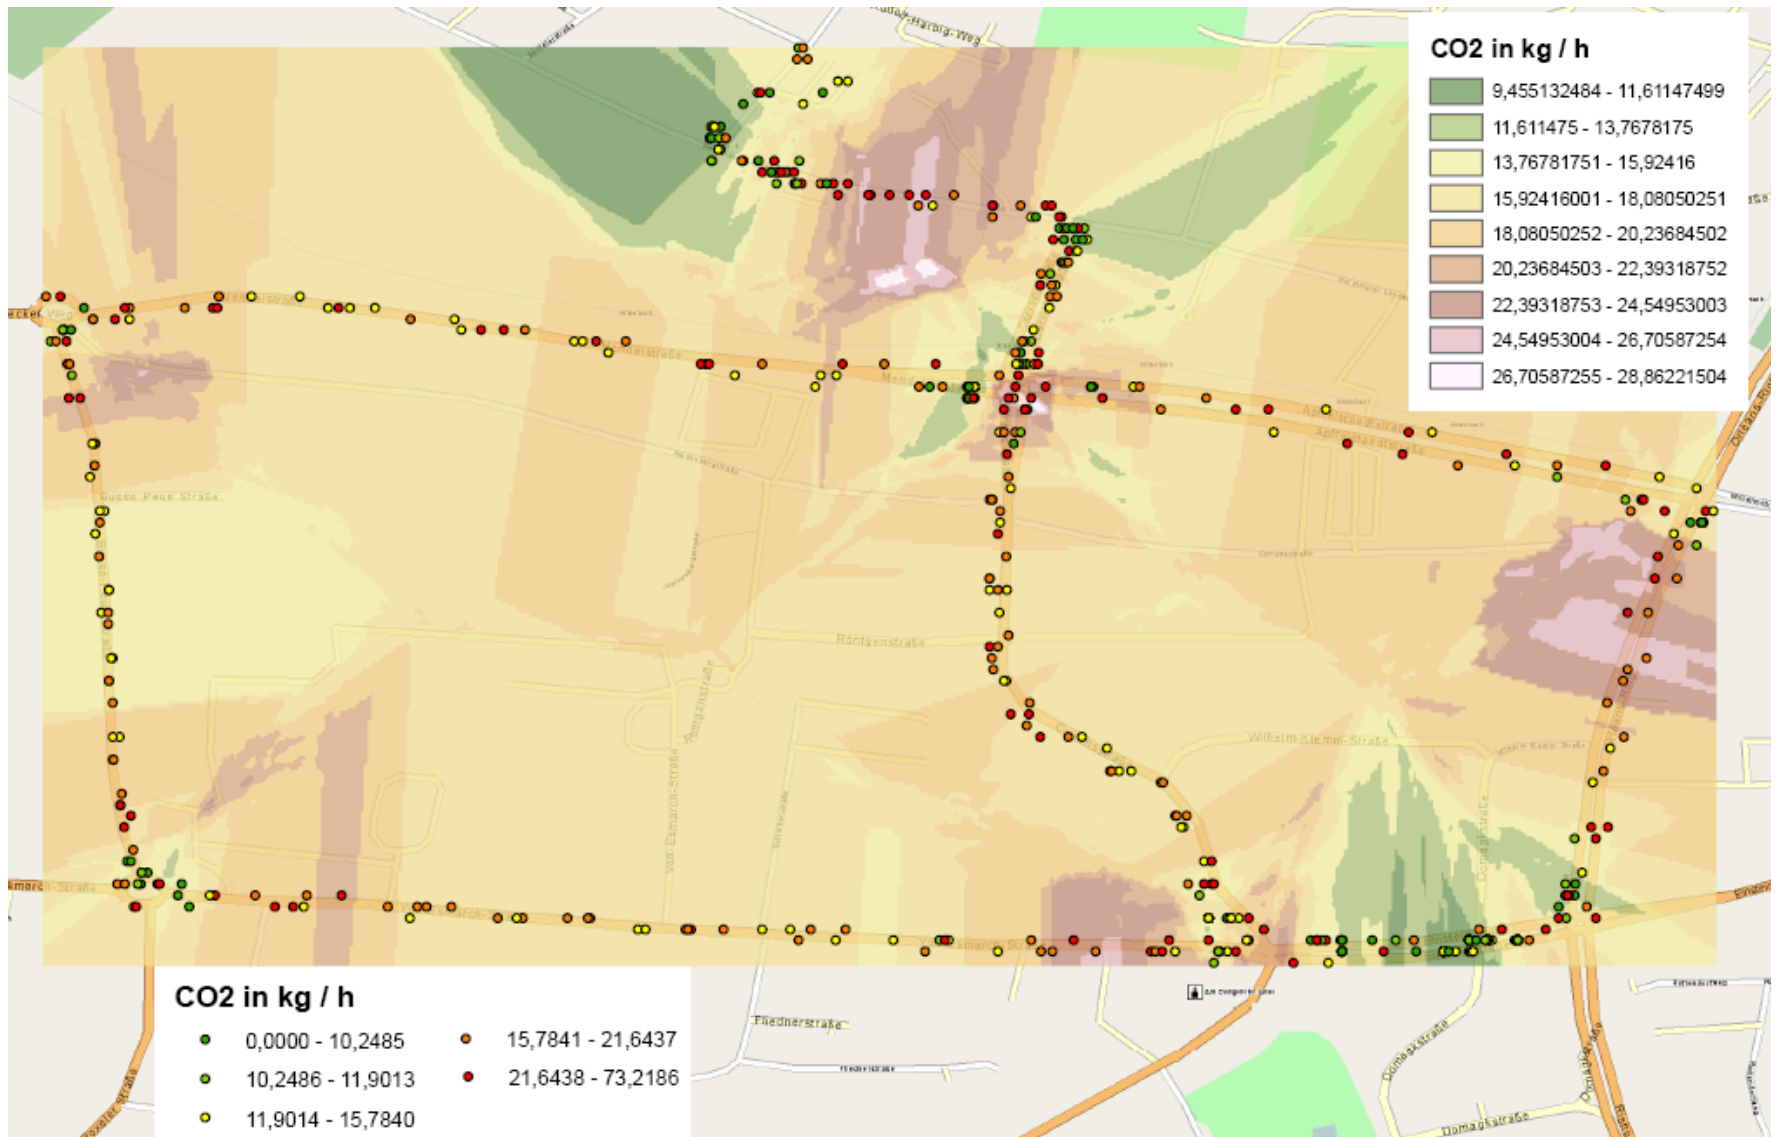

## ■ Test cars

	Hersteller	Modell	Fahrzeugklasse	Baujahr	Kraftstoff
1	KIA	Picanto	Kleinstwagen	2005	Benzin
2	BMW	118d	Kompaktklasse	2005	Diesel
3	BMW	525d	Obere Mittelklasse	2007	Diesel
4	Mercedes	E 220 CDi	Obere Mittelklasse	2010	Diesel
5	Hyundai	Santa Fe	SUV	2009	Diesel
6	Saab	9.3 1.9 TiD	Cabrio / Sportwagen	2006	Diesel

# Analysis of Car Standing Times

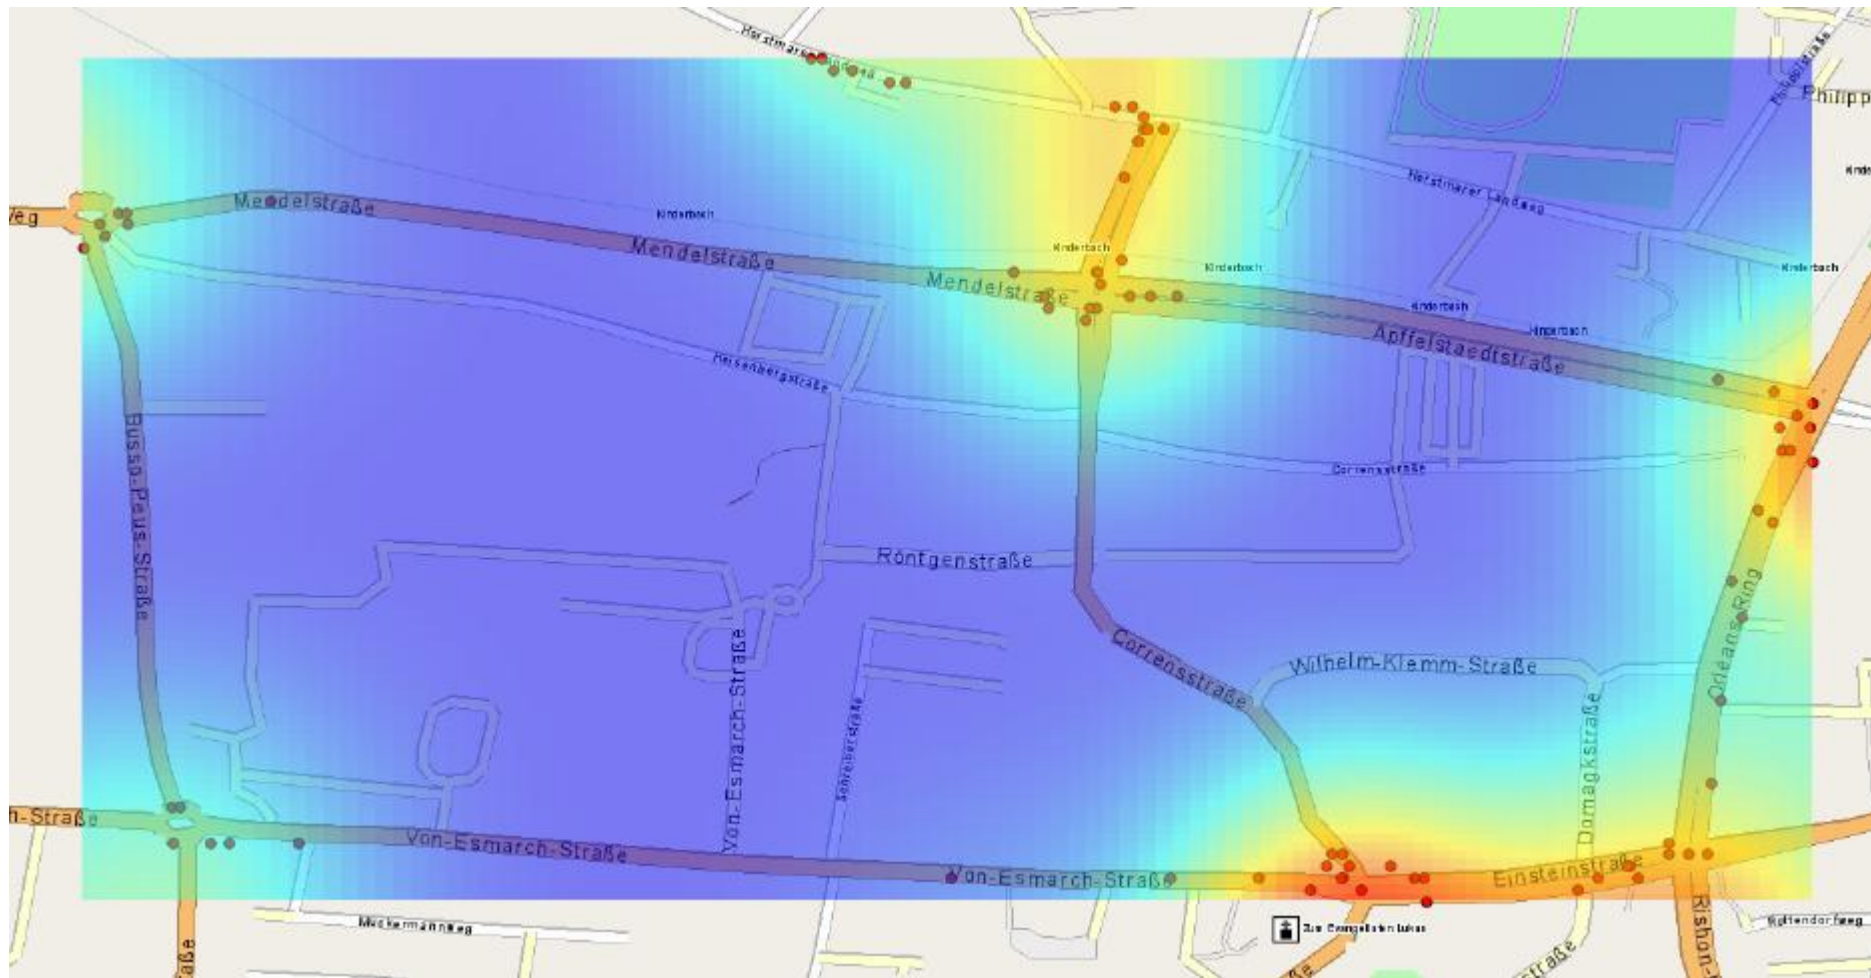

# Aggregated CO2 Emmission

# Produced Noise derived from RPM

# Questions?

Thank you!
